You can buy it for more variety of characters in multiplayer. Doesn't look like in picture (doesn't have hat and he is in yellow costume) but still not worse.. The karakter sucks and the multiplayer is dead xD. **DLC verdict: Don't get it OR Get it in the bundle with the base game**

Comment:

Adds a new playable character for multiplayer. However, the multiplayer is dead, thus making the DLC obsolete. But you CAN get it in the GOTY edition of the game, if you wish to do so.

If you liked this DLC review you can find more in my [Review Corner.](#) [If you are a Tomb Raider fan and want to have the full collection of this game then buy it only on sale and buy the GOTY edition.](#)
RIP Multiplayer btw.. Multiplayer's death

Ripoff

His pants are yellow, not dark brown like here on DLC picture , very easy target... DO NOT BUY. The multiplayer is dead. Pretty much nobody has played multiplayer since maybe a few months after the game was released.. DLC program FAIL.
